Objective

Aspiring Computer Science Engineer with a strong foundation in modern web development, Data Science, and Machine Learning. Eager to leverage internship experiences and certifications to build dynamic, data-driven applications.

Education

B.Tech in Computer Science

Srinivas Institute of Technology, Mangalore | 2023 - 2027

Technical Skills

Programming: Python, Java, HTML

Web & Cloud: Web Development, FastAPI, WebSockets

Data & AI: Machine Learning, Generative AI, Data Science & Analytics

Databases: MongoDB

Internships

Python Programming Intern

CodSoft | Virtual Internship (May 2025 - Jun 2025)

Developed Python-based programs and solutions during a 4-week virtual internship format.

Web Development Intern

CODTECH IT SOLUTIONS | Virtual Program (May 2025 - Jun 2025)

Actively participated and demonstrated dedication in building structural web applications.

Web Development Internship

TECH OCTANET SERVICES PVT LTD | (Aug 2024 - Sep 2024)

Engaged in various tech projects and exhibited remarkable web development skills.

Python Developer Intern

StaxTech | (Jun 2025 - Jul 2025)

Batch-based Python intern role focused on structured, real-world application building.

Projects

Hotel Booking System

FastAPI, MongoDB, WebSockets

Advanced Real-Time Hotel Booking System demonstrating microservices and live updates.

Data Science Analytics Pipeline

Python, Analytics

Explored and analyzed targeted datasets using modern data science methodologies.

IBM ML Recommender

Machine Learning, Python

Machine Learning algorithms and data solutions developed during the course of the IBM program.

Password Generator & Utilities

Python Development

Created a secure, customizable tool to generate strong encrypted passwords instantly alongside a calculator app.

Certifications

- Information Technology Specialist - Java (Pearson VUE / Certiport)
- Python 101 for Data Science (IBM)
- Web Development Fundamentals (IBM SkillsBuild)
- Data Visualisation: Empowering Business with Effective Insights (Tata Group)
- GenAI Powered Data Analytics Job Simulation (Tata Group)
- Software Engineering Job Simulation (New York Jobs CEO Council)
- Machine Learning with Python (IBM)
